Equipment List

The Hirschgrund Zipline Area of the Black Forest offers outdoor activities on trails and tracks that could be wet. Be sure to check the weather forecast beforehand in order to plan accordingly.

Please plan for the tour in the Hirschgrund Zipline Area to last around 2 and half hours.

We recommend the following gear:

- Sturdy shoes. If the weather is nice, sneakers or athletic shoes will work great! An even better option would be ankle-high hiking boots. Heels and sandals are not suitable for the tour.
- Comfortable clothes which are appropriate for the weather and able to get dirty.
- Come prepared with rainwear or a change of clothes in case of rainy weather. Often a tour will start with cool temperatures, showers, some wind, and snow showers, but could change into heavy weather as the tour goes on.

Also recommended:

- Personal medication.
- Mosquito and tick repellent.
- Beverages in plastic or aluminum bottles. (No glass bottles, please)
- Sunscreen if necessary. (We will mostly be in the shadow of the forest)

Not recommended:

- Rubber boots. (Sturdy shoes are sufficient even during heavy rainfalls)
- Gloves. (The guide will slow you down on the rope; you will not need to touch it yourself)

If necessary you can borrow a little daypack for your personal belongings for free of charge at our base.
